- Reinstatement of GA Tech’s Lean Six Sigma class that was placed on suspension due to low employment performance after exit. WSC officially could not verify the employment of participants by the acceptable criteria as required by the State and Federal offices. WSC also requires a hire letter, employment letter, check stub, and/or a Human Resource Representative verifying employment with documentation from the company’s office. On April 27th, 2018, the Executive Committee acted on behalf of the Board and approved the reinstatement of the Lean Six Sigma classes schedules to start mid-April.

- Per the request of the CWDB Board Members, WSC staff provided a list of members by committee (i.e., EWA, Youth, and Public Relations, Executive, etc) for reference. The document was made part of the Board meeting packet.

Director's Report: Mrs. Sheron Morgan presented the following announcements, updates and upcoming events:

**Financial Report:** In Mrs. Crystal Northcutt absence, Mrs. Morgan presented the Region’s funding summary through March 2018. Due to the City of Savannah’s malware attack and no use of her computer for an extended period of time Mrs. Northcutt was unable to present January and February FSRs. The State has granted WSC for the submission January and February FSRs but will expect them by the deadline in March.

**Funding Summary**
**Through March 2018**
Areas of Concern:

Youth: We must spend 20% of PY16 Youth program funds on WEX. At the end of March the remaining amount to be spent to reach the goal is $76,760.

DW: We transferred $1.2 PY17 DW to Adult and was awarded $1M in additional PY16 DW; therefore, we will have about $300,000 that must be spent by June 30, 2018.

Committee Reports

Economic and Workforce Alignment: Mr. David Atkins reported the following information:

- The Committee discussed Georgia Institute of Technology Lean Six Sigma Program. The Ga Tech Lean Six Sigma program was placed on temporary enrollment suspension due to low employment after exit outcomes. For PY16 & 17 the program had a 45% employment after exit rate with 141 enrollments and 64 gaining employment. Georgia Tech Professional Education presented to the Committee that after receiving notification from WSC Staff that his team have created a pre-screening to ensure suitability prior to enrollment in efforts to prevent the low employment rate. It was decided by the Committee that ONLY up to 15 students would be approved for the upcoming April class. After completion, the Committee will review performance outcomes. The Committee’s recommended the action item be forwarded to the Executive Committee to Act on behalf of the Board at the March 22nd meeting to avoid impeding the enrollment process for the April class.

- The Committee also discussed Georgia Southern University’s Veteran Entrepreneurship Program. The program was initially submitted as a workshop, but wanted to be considered as an ITA and placed on the ETPL as such. WSC Staff, Karen Barnes discussed the program with Steven Wilson (Data and Information Manager) at GDEcD-WFD, who stated as an ITA the program would count towards the region’s performance and would need to be reviewed by the CWDB; then, recommended to the State for final approval. After some discussion, the application was disapproved by the EWA Committee due to the difficulty in determining and gaining State mandated performance. The recommendation will be forwarded to the Executive Committee then CWDB; and on to the State for final approval/decision to be placed on the ETPL.

Mr. Atkins also recognized staff and the work done to make sure CWDB was part of the Effingham Job Fair earlier this month. Also, the event was featured in the Effingham County newspaper.

Ms. Genevieve Wynegar, Board and Youth Committee member expressed her opinion of the PY18 Youth Service Providers results and recommendations. She stated that she was not pleased with the proposals and that they were poorly written for her county (McIntosh), respectively. She realized that the proposals had been cut and pasted for another sub-region’s bid, which showed no thought or effort. In addition, she was not pleased with the services or lack thereof that the youth are receiving in McIntosh County. She pointed out that there are no GED services and only one (1) youth received services. However, she was willing to give Eckerd/Paxen one more opportunity to serve the youth of McIntosh County.
Mrs. Morgan explained to Ms. Wynegar that some grant/proposal writers will cut and paste language to avoid retyping the same information, and that the practice is common. In this case, it was probably an oversight or typo. Mrs. Morgan also acknowledged and addressed Ms. Wynegar’s concerns by explaining that as a Board member she is encouraged to represent her county and identify the needs and lack of workforce development resources in her county. Ms. Morgan asked that all members do the same. Data gives a picture of what is trending in a county, city or state; however, sometimes it takes some actual visits and conversation to capture the reality. Service Providers need the help of the community to identify the “true” needs of the residents and employers. Mrs. Morgan asked Ms. Wynegar to assist Eckerd/Paxen as she has an inside track in her community by virtue of her position with the Family Connections organization.

Ms. Wynegar agreed that she would provide her assistance to the staff of Eckerd/Paxen this upcoming program year.

Mrs. Morgan presented the PY18 Adult & Dislocated Worker: One-Stop Operator and Career, Training & Case Management results and recommendations. Mrs. Morgan shared the benefit of having different Service Provider as a neutral party, whereas in the past ROSS- Innovative Employment Solutions was also the One-Stop Operator. However, it is not prohibited under the law, but has proven to be a best practice in many states throughout the U.S. The One-Stop Operator will oversee the entire delivery system. The One-Stop Operator will focus more on the Job Centers daily operations by ensuring that each center is running smoothly, partners are paying their share of the infrastructure costs, while the Adult/Dislocated Service Provider focus more on participants, training services, workshops, etc.
