

Processing Technician

Position Summary

Our team is hiring a Processing Technician to support our growing team. This role is responsible for tasks associated with the receipt, handling, processing, blending, packaging, and bulk loading of vegetable oil. The Processing Technician operates and maintains edible oil processing equipment.

This is an entry level position that will help our team remain the partners of choice for high quality, specialty fats and oils by providing the best products for our customers.

Employees will establish positive relationships with our teams by displaying trust and respect, deliver the highest quality of service and comply with proper safety policies and procedures.

Responsibilities Include the following:

- Operate computer driven process equipment, steam boilers
- Sample, measure, inventory, and check temperatures of tanks
- Receive and put away chemicals, ingredients, and miscellaneous supplies
- Blend and transfer oil by operating valves, checking the heat tracing, and clearing lines
- Monitor the conversion of fuels, the water feed system, and the controls on the low- and high-pressure boilers
- Contain and clean oil in the event of a spill
- Clean and change industrial filters
- Prepare the plant equipment for startup, shutdown, freeze plans, and hazardous weather conditions
- Troubleshoot, repair, and maintain processing equipment as needed
- Operate the bleaching and deodorizing systems to produce a final product meeting internal as well as customer specifications
- Drive a forklift truck to move drums and other production items
- Maintain and clean processing and plant areas

Qualifications

To perform this job successfully, applicants must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- work in an environment that requires frequent exposure to outside weather conditions
- move mechanical parts in high precarious places
- work around fumes or airborne particles, and toxic or caustic chemicals
- frequently is required to stand and walk, including on cat walks or ladders approximately 60 feet above the ground

Hours & Compensation

- Full Time – 12-hour swing shift
- Hourly Wage – starting at \$20.08

About the Company

Fuji Vegetable Oil, Inc. is a leader in the production of ingredients for the food industry. Established in 1987, Fuji Vegetable Oil has continued to grow as a major supplier of specialty fats and oils. Our company is dedicated to delivering the highest quality specialty fat and oil ingredients for the confectionary and baking industries across North America. You will find our products in a variety of quality foods, from the finest confections to baked and fried snacks and pastries. In addition, we provide a variety of products to industrial end users. Our raw material comes from sustainable sources and include palm and palm kernel fractions along with coconut and high oleic sunflower oils.

The scientists at our research center are constantly working to develop and improve our specialty fats and oils. They work closely with our customers to identify the best products for their specific needs and create customized products to meet the most demanding applications.
