

CHOOSE A RELIABLE COMPANY THAT **has** **your back**

At Schneider, we provide the resources and support necessary to set you up for a successful and fulfilling career. See for yourself how Schneider continues to boost the driver experience:

Complete pay and leading benefits

Drivers receive paychecks that accurately reflect the work they do. Pay packages often include mileage pay, hourly pay, load pay and/or more. Plus, Schneider's award-winning benefits package provides options for single and family coverage.

New opportunities

Schneider recently expanded its positions across the U.S., giving drivers the chance to take their driving career in the direction they want. We've added new dedicated and tanker accounts, as well as regional VTL opportunities that deliver more consistency and reliability.

More comfortable equipment

Our trucks are spec'd with driver comfort features like APUs, refrigerators and power inverters to make life out on the road more enjoyable.

Unmatched flexibility

If the driving job you hire onto isn't the right fit, our Transfer Team will help you find a different opportunity within the company. Nearly 2,000 Schneider drivers transferred to different opportunities last year that better met their lifestyle needs.
