

PLUMBING INSPECTOR

ESSENTIAL JOB FUNCTIONS

- Reviews plans for plumbing systems to ensure code compliance.
- Receives applications and issues plumbing permits; schedules inspections.
- Makes inspections to determine conformance with laws, ordinances, and codes; checks excavations, backfill, soil conditions, and plumbing systems.
- Informs and meets with owners, contractors, designers, and other city departments concerning plumbing code violations.

MINIMUM QUALIFICATIONS

- High School Diploma or GED equivalent plus additional vocational training required in drafting, design technology or plumbing; with three (3) years of journey level plumbing or plumbing construction foreman experience; or any equivalent combination of education, training, and experience.
- Requires ICC Commercial and Residential Plumbing Inspector certification within twelve (12) months from employment date.
